

GLOBAL STUDENT OUTREACH · CAMBODIA

Annual Report 2013

For the year ended December 31, 2013

Local registration: Recognized by the Royal Government of Cambodia as a locally registered Non-Governmental Organization since 2009. NGO Registration #1388.

Reporting basis: Management-prepared, cash basis. See Note 1 below.

Note 1 — Reporting basis. These financial statements are management-prepared by GSO's leadership team using the organization's operational records, financial accounts, and institutional memory. They have not been audited by an independent auditor. The statements present our work on a cash basis — income is recorded when received, expenses when paid. Where we have identified errors in our historical records during the preparation of these reports, we have corrected them and noted the correction. If you have questions about any specific figure, contact us at info@gsocambodia.org.

A note on the early years. During the 2011-2014 period, GSO was operationally managed by its two co-founders, Dustin Javorsky and Ho Nhean. Volunteers were hosted in homestays — primarily at Ho Nhean's home — with the co-founders personally coordinating all in-country logistics, from airport pickup to project delivery. This lean operational model is the foundation of the organization's low-overhead structure that continues today, and the reason every dollar reported in our financials went directly to programs.

Year in review

2013 was a year of practical expansion. Global Student Outreach continued free English-language programs, supported local teachers, hosted rotating volunteer teams, and began overseeing the construction of a primary school in Arai village with staged support from Wilde Ganzen.

GSO continued to execute free English-language programs for children who could not afford private tuition. Volunteer teachers worked alongside local teachers in six primary schools and partner communities. The organization hosted approximately 50-70 volunteers during the year, with visits distributed across the calendar so education and project activities could continue through rotating coverage rather than through one large team serving at the same time.

The Arai Village School project

The principal capital project of 2013 was the planned construction and oversight of a primary school in Arai village. The project was supported by a \$35,000 Wilde Ganzen grant, released in three stages to align funding with construction progress, material purchases, and completion review.

Stage	Purpose	Amount
Stage 1	Planning, site preparation, and initial materials	\$10,000
Stage 2	Structural construction, roofing, and classroom works	\$12,500
Stage 3	Completion, fittings, classroom readiness, and project close-out	\$12,500
Total Wilde Ganzen grant		\$35,000

This was GSO's first major institutional grant. The Arai Village School was completed in 2014, and the school was handed over to the local Ka Kraw Law district government in 2016.

Highlights

Measure	2013 result
Volunteers hosted (approximate, varying year to year)	50-70
Wilde Ganzen staged grant (Arai school)	\$35,000
Be More volunteer program income	\$54,027
Schools and partner sites	6
Program-spending ratio	92.1%
Total support and revenue	\$101,027

Be More partnership

GSO worked with **Be More** (Holland) to supply volunteers at a standard placement rate. The 2013 financial schedule records \$54,027 in volunteer-program income, corresponding to approximately 50-70 volunteer placements. The Be More relationship strengthened the volunteer-funded model by providing a repeatable source of participants and related program fees.

Statement of Activities

Item	Amount (USD)
Wilde Ganzen staged grant — Arai Village School	\$35,000
Be More volunteer program income	\$54,027
Private contributions	\$9,000
Founder contributions	\$3,000
Total support and revenue	\$101,027
Program services	\$93,027
Management and general	\$8,000
Total expenses	\$101,027
Change in net assets	\$0

Program-spending ratio: 92.1%.
