Note 1 — Reporting basis. These financial statements are management-prepared by GSO's leadership team using the organization's operational records, financial accounts, and institutional memory. They have not been audited by an independent auditor. The statements present our work on a cash basis — income is recorded when received, expenses when paid. Where we have identified errors in our historical records during the preparation of these reports, we have corrected them and noted the correction. Year in review

2015 was managed as a year of consistency. Global Student Outreach maintained the school network, volunteer program, equipment-supported projects, and local staffing structure established in prior years. The organization did not pursue a major expansion of program size; instead, it focused on dependable delivery, responsible maintenance, and keeping resources directed toward children and schools.

The annual budget was approximately \$106,500, modestly above 2014. Volunteer participation remained a steady source of income, and excavator-supported project work continued to provide approximately 35% of total revenue. The equipment fleet was used for rural access, rice-field repair, school-road maintenance, transport, and project implementation.
