**Note 1 — Reporting basis.** These financial statements are management-prepared by GSO's leadership team using the organization's operational records, financial accounts, and institutional memory. They have not been audited by an independent auditor. The statements present our work on a cash basis — income is recorded when received, expenses when paid. Where we have identified errors in our historical records during the preparation of these reports, we have corrected them and noted the correction. ## Year in review — recovery year

2021 was managed as a controlled recovery year. GSO restored selected activities only when local conditions allowed, kept family support active, and maintained a smaller operating footprint than before the pandemic.

The year began under continuing public-health pressure. Schools, villages, travel routes, and volunteer movements did not return to a single stable operating pattern. GSO therefore worked through a staged recovery: local staff and families maintained essential livelihood systems, home-learning and family support remained available where needed, and limited volunteer and field activities resumed only when practical.

The annual budget increased from the sharply reduced pandemic level but remained below the organization's pre-pandemic operating scale at approximately \$85,000. The organization focused on maintaining what had already been built, repairing systems affected by limited field access, and preparing a more resilient model for future program delivery.
